**MOST TRUSTED
PLUMBING SOLUTION**

PRODUCT BROCHURE

HIL Limited

HIL is a part of the CK Birla Group, a growing US \$1.8 Billion conglomerate that has a history of enduring relationships with acclaimed global companies. Having over 20,000 employees, 22 manufacturing facilities and, numerous patents and awards, the groups businesses are present across five continents.

5 ADVANTAGES OF BIRLA HIL

Reasons 1

TrueFit™ technology for 100% Leak-Proof Joints

Reasons 2

Top-notch raw materials to deliver high-end quality products

Reasons 3

Robust manufacturing processes to deliver consistent top-quality products

Reasons 4

Uniquely designed corrosion-resistant brass fittings to deliver high torque-bearing capability

Reasons 5

A committed team to help build your dream project

CPVC Pipes & Fittings

Matched Strength and Quality

Benefits of Birla HiL CPVC Pipes & Fittings:

- TrueFit™ technology for 100% leak-proof joints.
- Widest range of Pipes & fittings from 1/2" to 4".
- Can withstand up to Max 28.1 Bar pressure at 23 C and max 8.79 Bar pressure at 82 C.
- Can withstand a temperature up to 95 C, in accordance with the standards.
- Top-notch Lead free inhouse compound, which is developed by a DSIR approved R&D centre.
- Regular testing of the finished products by the NABL accredited labs.

UPVC Pipes & Fittings

Sustainability for Longer Life

Benefits of Birla HiL UPVC Pipes & Fittings:

TrueFit™ technology for 100% leak-proof joints.

UV stabilized and fire resistant.

Cost effective, easily Installable, requires low maintenance and lower labour costs.

No corrosion, no leakage, no scaling and pitting and no algae formation.

Regular Lab testing of finished product from NABL accredited labs.

SWR Pipes & Fittings

Superior Design for Enhanced Impact

Benefits of Birla HIL SWR Pipes & Fittings:

- Wide range of pipes and fittings up to 160mm.
- Quality that adheres to BIS Standards.
- Yellow sealed leak-proof joints.
- Easy installation.
- High impact strength.
- UV Stability & long life.
- Chemical and corrosion resistant.
- Maintenance-free.

Pressure Pipes & Fittings

Prominence of Durability and Cost Effectiveness

Benefits of Birla HIL Pressure Pipes & Fittings:

- Corrosion, chemical and abrasion resistance.
- Strong, tough, light in weight and long lasting.
- Non-conductive and self-extinguishable.
- UV stabilized.
- Smooth inner surface for high flow rate and no algae formation.

Column Pipes

Technology of tomorrow for Trouble Free Performance

Benefits of Birla HIL Column Pipes:

- Specially designed threads and EPDM 'O' rings to ensure 100% leak proof joints.
- Advance manufacturing technology ensures of pipes of higher impact & tensile strength.
- SS double wire technology: Double guarantee of pump safety.
- Constant inner diameter ensuring continuous flow.
- Top-notch lead free inhouse compound, which is developed by a DSIR approved R&D centre.
- No corrosion, no leakage, no scaling and pitting and no algae formation.
- Wide range of pipes up to 1" to 4".

Major Certifications

CFTRI Certificate

The Central Food Technology Research Institute has certified that that our **CPVC and UPVC Pipes** are of food grade hygiene and are safe to be used for transportation and storage of drinking water at room temperature.

RoHS Certificate

TUV has certified that our **Pipes and Fittings** has passed its RoHS test and are devoid of harmful and toxic substances. They are hygienic and safe, and are in compliance with international standards.

CIPET Certificate

The Central Institute of Plastics Engineering and Technology has certified that our **Pipes and Fittings** has successfully passed all tests recommended, and is of premium quality.

Shriram Certificate

The Shriram Institute of Industrial Research has certified that our **Pipes and Fittings** has passed all the tests recommended.

Are you ready to experience
a Leak Proof world?
